EXP 14 WRITE A CODE USING RAW SOCKET TO IMPLEMENT PACKET SNIFFING

AIM:- Write a code using raw socket to implement packet sniffing

PROGRAM:-

```
#include <stdio.h>
#include <unistd.h>
#include <arpa/inet.h>
int main(){
    int sock;
    char buffer[65536];
    struct sockaddr saddr;
    int len = sizeof(saddr);
    while(1){
        int n: recvfrom(sock, buffer, sizeof(buffer),
    &saddr, (socklen_t*)&len);
  if(n>0){
      struct iphdr *ip = (struct iphdr*) buffer;
  printf("Packet recieved\n");
  }
  close(sock);
    return 0;
  }
```

RESULT:-

The program has been executed successfully.
